What’s in it? 4/4 140BPM

What’s in it for me love
Can’t feel the temptation here
What’s in it for me girl/boy
That message aint coming through
There’s no shiver inside me
No color around your head
No fancy sparkling
Guess our love is dead

You came walking down the street
High heel boots and sparkling cheeks
Caught me heart and burned me soul
But now were lost can’t feel our goal

What’s in it for you love
Do you need my presence here
Do you need my touch
Say do you need to share
Do you feel the temptation
Do you feel some reaction in your bone
Do you feel the pain when our love is in vain through the falling rain

I were walking down that road
Sneaker on me feat one corduroy suit
Caught your heart and burned your soul
But now were lost can’t feel our goal

What’s in it for us love
Could we find a way to share
Is it possible to care
Move together without fear
Could we find a way to grow
Light that arrow draw that bow
Aim towards that unknown space and follow the flow

We could walk on down the street
Lift our feet towards the beat
With burning hearts and burning souls
We couldn’t care less of our goal
