Letter 4/4 150 BPM

Gonna write you a letter
Gonna call you on the phone
And if it make you feel better
Gonna lie some truth to you

Gonna nudge you in position
Gonna cry and share some sights
And if it make you feel better
I'll catch a star out of the sky
Now that I've planted one of my visions
I'll guess I'll travel across the sea
And if it make you feel better
I'll bring it on home to thee

So when I lurked you in my cave
And you accepted that share of your faith
I'll guess it make you feel better
If I leave my missionary state

And if our compulsory passion
will blow its horn some of these nights
That fruit will transform your condition
And be my fire and my light

Now that I've planted one of my visions
I'll guess I'll travel across the sea
And if it make you feel better
I'll bring it on home to thee

Gonna write you a letter
When I stumbled of this throne
And if it make you feel better
I'll let you fly out on your own

Gonna write you a letter
Gonna cry out through the night
And if it makes you feel better
Gonna lie some truth in this sight

Now that I've planted one of my visions
I'll guess I'll travel across the sea
And if it make you feel better
I'll bring it on home to thee
